

Tuareg Mat Collection

Because of complicated global situations, the art of weaving diminishing and competition with mass production, these Tuareg Mats are more valuable than ever. Available stock is very low globally, especially for vintage mats in good conditions, making these Tuareg mats a rare collector's piece.

We present you with our curated collection, sourced from multiple locations in sub Saharan Africa. Steeped in history, each piece is a work of art.

The Ancestors

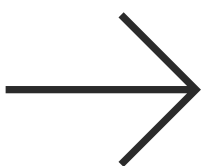

These ancient, rare mats have been aquired by Emma on her search for antique pieces. Once purchased, the mats will be carefully restored by our specialist before delivery.
