

Tuareg Mat Collection

Because of complicated global situations, the art of weaving diminishing and competition with mass production, these Tuareg Mats are more valuable than ever. Available stock is very low globally, especially for vintage mats in good conditions.

The Tribe

These vintage mats have been sourced from Mauritania.
Each individual piece hand picked for it's uniqueness.

Tuareg mats are woven from palm fronds and goat and camel leather. Intricately woven with tribal symbolism.

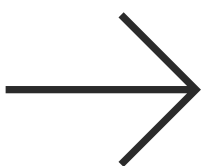

Once purchased, the mats will be carefully restored by our specialist before delivery.
